ShareStream Pick-n-Play
Canvas LMS

ShareStream is a media platform for uploading, transcoding, editing, managing and delivering video and audio content in a secure environment integrated within the course LMS. ShareStream tools include Pick-n-Play and MediaManager. The ShareStream tools must be enabled within your course to be used.

To enable ShareStream tools within your course:

Step 1 – Login to your course and select Settings from the menu

- Login to your course in Canvas.
- Select Settings from the course menu.
- Select the Navigation tab from the settings menu.
- All of the course menu navigation tools are listed.

Step 2 – Enable ShareStream in the course Navigation menu

- Active course menu items at listed at the top and hidden items are listed below.
- Locate ShareStream Pick-n-Play from the list.
    - Click the drop-down arrow and choose Enable.
    - The menu item is not listed with other active menu items.
    - Click Save to apply the course menu navigation changes.
    - The tool is now visible in the course navigation menu.
- *Repeat these steps to enable the ShareStream MediaManager tool.*

Step 3 – View and manage ShareStream content in the course

- Locate ShareStream Pick-n-Play from the course navigation menu.
    - Pick-n-Play menu: Would you like to copy ShareStream media assets from another course to this new course?
        - If No, select No > click Proceed > the Media files for this course are visible within ShareStream Pick-n-Play
        - If Yes, select Yes > select course to copy media from > click Proceed > click OK to copy media assets (Proceed) > the Media files for this course are visible within ShareStream Pick-n-Play
- Locate ShareStream MediaManager from the course navigation menu.
    - The MediaManager window opens within the course.
    - View and manage the course collections from the course library.
